

# BEST TECK

Pitch Deck

## About CDP

---

- ✓ 30 Years
- ✓ 100+ Employees
- ✓ 4000+ Customers
- ✓ 260 CR+ Turnover
- ✓ Pan-India Presence

# Employee Attendance Solution (EAS)

---

EAS is a mobile-based application; it is the safest and easiest way to mark the daily attendance of your employees.

## Attendance

- Contact-less and safe
- Geo-location tagging
- Accurate attendance
- Paperless and eliminates manual work
- Real-time attendance information
- Leave application

## Field activities

- Job reporting
- Task management
- Work from home
- Messages
- Location tracking
- Manager – view my team

# Key Features: Employee

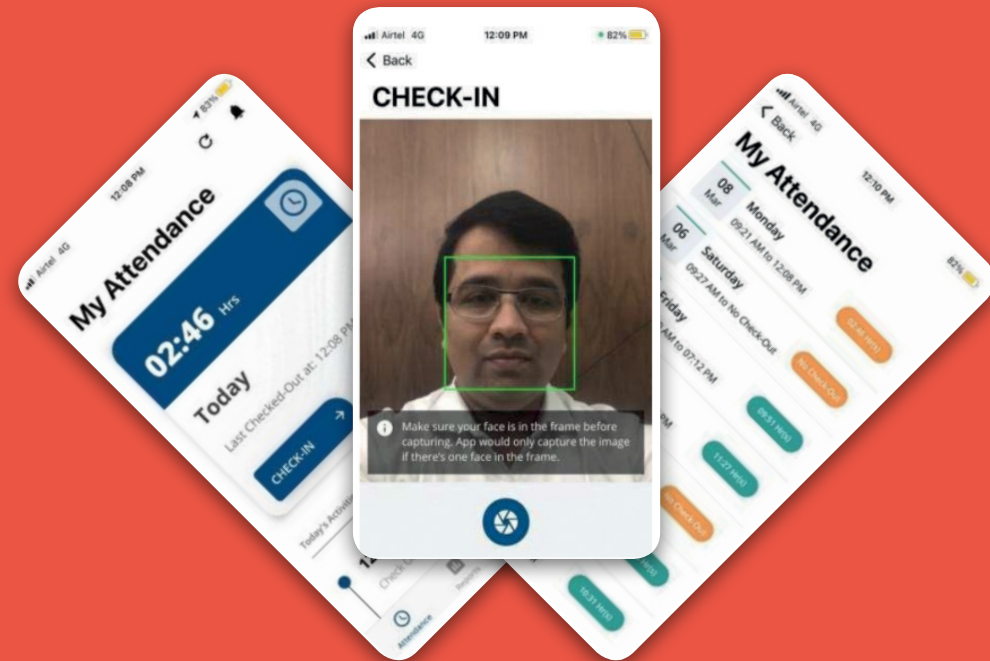

---

The user has the following options in the mobile app

- ✓ My attendance
- ✓ Job reporting
- ✓ Task management
- ✓ Work from home
- ✓ View records
- ✓ Leave management
- ✓ Notifications

# Contactless Facial Attendance

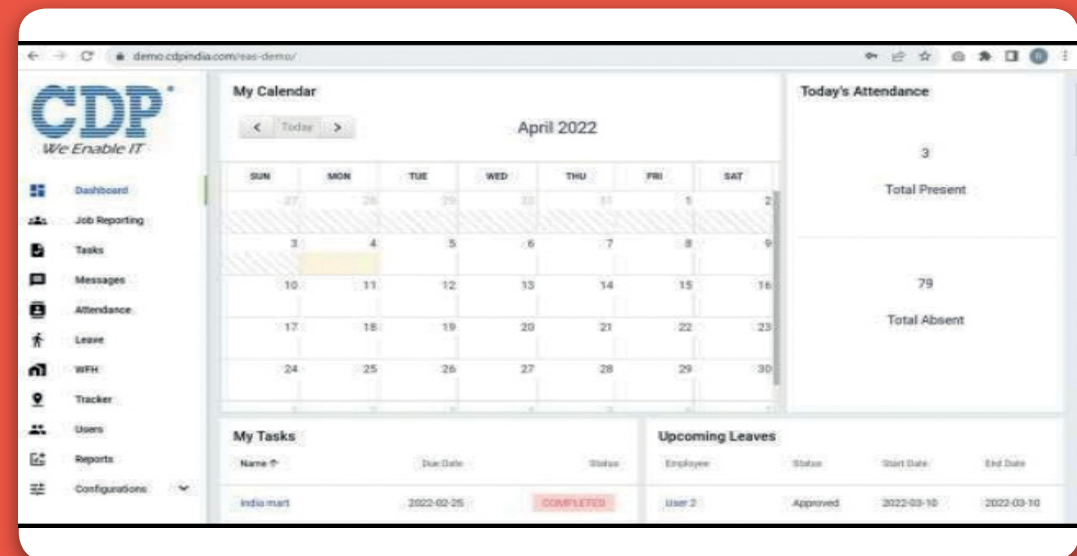

Facial recognition captures the attendance through Facial mode of the user which helps in prevention of proxy attendance.

The admin can monitor the attendance of the employees, the strength of the organization for the day, the task created and the upcoming leaves.

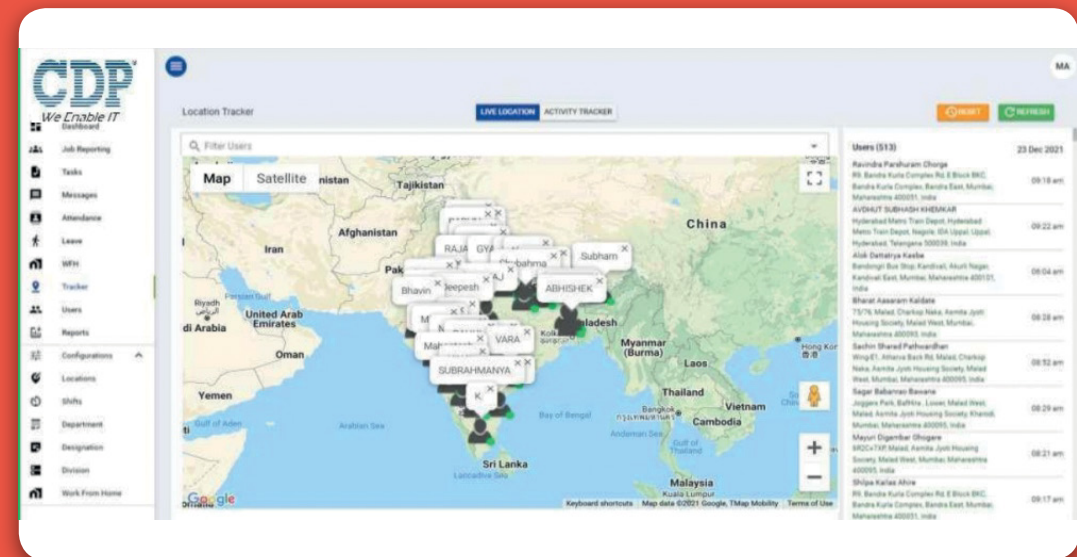

## Employee: One Touch Dashboard

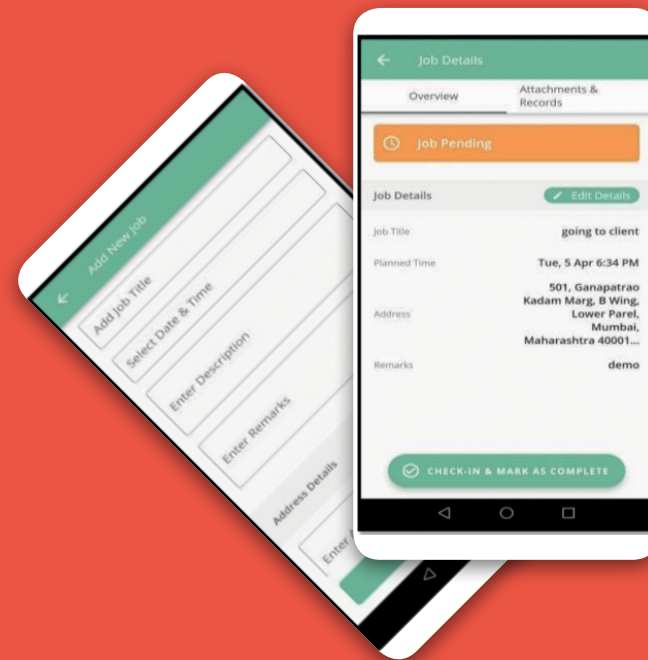

# Employee: Location Tracking

The admin can monitor the attendance of the employees, period tracking after a periodic interval also can be possible through the portal.

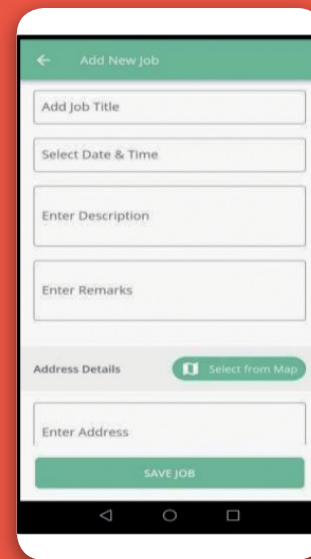

# Employee: Job Reporting

The user can create a job when he wants to go to a meeting and accordingly upload the details when entering the meeting and later can click on complete after he completes the meeting.

# Employee: Task Management

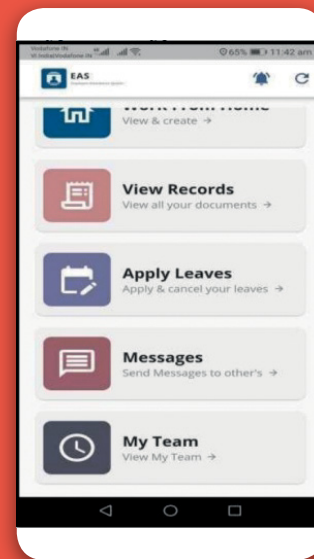

The manager can create task for the user or the manager can even assign task to the user. The task can also be tagged to the 'work from home'.

User can send message to other users. User can either select a particular user or chose multiple users or send to all users.

# Employee Communication: Message and Notification

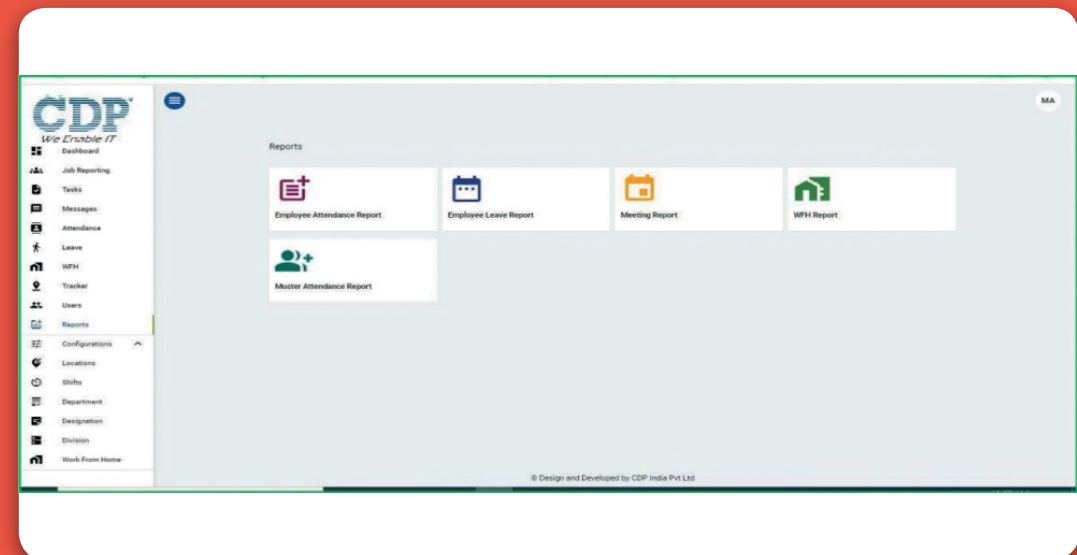

# Key Features: Manager Login Notification

The manager can view the “My teams” option and see the attendance, assign tasks, view and assign job reporting.

The manager can view the “My teams” option and see the attendance, assign tasks, view and assign job reporting.
